This report, published each calendar year, is a compilation of employment and wage data. The information is compiled from reports submited to the Montana Department of Labor and Industry by employers subject to the Montana unemployment insurance law. Also included in the report are similar data for federal government employees in Montana.

Employment and wages are totaled according to county, private ownership, government and industry.

A special thank you to:

Gerry Hiles, Research Specialist, who analyzed the data and wrote the text.

Birgit Stipich, who input text, arranged and distributed the publication.

Brian Smith, who researched and created the cover page graph.

If you have any questions, please contact Gerry Hiles at (406) 444-3239.

DEFINITIONS

COVERED EMPLOYMENT

Employers, whose total annual payroll exceeds $1,000 in the calendar year, who are subject to Montana's Unemployment Insurance law.

Also includes:
- -Agricultural employers if they paid $20,000 or more in a quarter, who are subject to Montana's unemployment insurance law.
- -Domestic service employers if they paid $1,000 or more in any quarter.
- -Self-employment on a voluntary basis.

Excludes:
- -Individuals in employment of son, daughter or spouse.
- -Railroad employees.
- -Real estate of insurance salespeople paid solely by commission.
- -Student workers, inmate workers or patient workers.
- -Elected officials.
- -Church employees.

SIC CODE (STANDARD INDUSTRIAL CLASSIFICATION CODE)

The objective in industry classification is to have each place of business coded on the basis of its principle activity. If a firm conducts different activities at its various establishments, separate industry codes are assigned to the extent possible to each reportable establishment based on `nature-of -business' information employers submit, in accordance with the Standard Industrial Classification Manual, 1972 edition.

ESTABLISHMENT

An establishment is defined as a single physical location at which one, or predominantly one, type of economic activity is carried on. Employers who operate at two or more locations are requested to identify separately the employment and payrolls of each location.

EMPLOYMENT

Annual average employment is the avarage number of monthly workers coverd under the Montana Unemployment Insurance laws who earned wages from a reporting unit during the pay period which includes the 12th day of the month.

ANNUAL WAGES PAID

Total wages, as reported on the quarterly contribution report of employers covered by the unemployment insurance law, are the total amount of compensation paid by the employer during the year.

TAXABLE WAGES

Taxable wages are that part of employers' annual wages subject to the unemployment insurance tax. Taxable wages are reported quarterly, and normally are highest in the first and second quarter, since UI taxes apply to first dollars earned during the year.

CONTRIBUTIONS

Contributions are the taxes due on taxable wages for the year. Taxes are assessed on subject employers at rates determined by Montana's experience-rating law.

DISCLOSURE RESTRICTIONS

Publication of employment and wage data is withheld for any industry level which consists of fewer than three reporting units or in which a single establishment accounts for 80 percent or more of the industry's employment.

TOTAL OF ALL INDUSTRIES

(EXCLUDES GOVERNMENT)

Transportation, Communication & Public Utilities, Mining and Services enjoyed employment increases that led to a net gain of over 3000 employees in 1981. Mining and Manufacturing dropped severely in 1982 with the closure of copper smelting and refining operations and cutbacks and closures in the lumber industry. In 1983, statewide employment improved as Manufacturing, Retail Trade, Finance, Insurance and Real Estate and Services experienced large employment gains. The improvement continued in 1984 with all industries adding employees except Construction. In 1985 and 1986 Services grew by more than 1000 per year but Mining, Construction and Wholesale Trade each had equivalent losses. Retail Trade and Services contributed employment gains in 1987 that offset Construction and Wholesale Trade employment losses and yielded a net annual employment gain. In 1988 Services, Retail Trade, Manufacturing and Mining made strong employment gains, adding 5250 employees. The FIRE and Wholesale Industries lost 416 employees.

AGRICULTURE, FORESTRY AND FISHERIES

All major groups in this division made steady employment increases from 1980 to 1985. in 1986, a 4% decline resulted from employment losses in Livestock Production. Agri Services increased employment and gave the industry a slight gain in 1987. All major groups of the division gained employment in 1988, led by Agri Production Crops.

MINING

The industry employment decline for 1982 through 1986 can be attributed to the loss of a major copper mining employer and losses in oil and gas exploration and extraction as foreign market prices dropped below domestic production margins. Metal Mining held the industry employment stable in 1987 and indeed provided the employment gain in 1987, with a net gain of 11 establishments.

CONSTRUCTION

This industry suffered a steady employment decline from 1983 to 1987. The losses through 1985 have been attributed to the cutbacks of a large industrial employer. In 1986 and 1987 the decline continued with heavy losses in General Building Construction and the allied Special Trades as interest rates climbed. The industry made a slight improvement in 1988 with Heavy Construction gains in Cascade, Lincoln, Missoula, Richland and Valley Counties and General Building and Special Trades activities in Cascade, Missoula and Gallatin counties.

MANUFACTURING

The closure of copper smelting and refining operations and cutbacks in the Lumber industry resulted in the 1982 employment declines. Employment from 1983 through 1986 followed the lumber industry. In 1987, lumber industry employment rose but employment losses in Petro Coal, Chemicals and Stone, Clay and Glass continued to decline. In 1988, with lumber employment down slightly from the previous year, Manufacturing increased primarily due to Miscellaneous Manufacturing and with good gains in Printing and Publishing, Transportation Equipment, and Electrical and Electronic Equipment.

TRANSPORTATION, COMMUNICATION AND PUBLIC UTILITIES

Employment growth in 1981 and 1982 followed deregulation of the Trucking industry and growth in Communications. The drop in 1983 was the result of a strike in the Communications industry. Employemnt in 1984 through 1986 remained below the 1982 level with the divestiture of a national communication corporation. In 1987, reorganization within Communications and employment losses in Trucking produced the sharpest employment decline of the eighties. The industry made slight employment improvements in 1988 led by gains in Trucking, Warehousing and Air Transportation.

WHOLESALE TRADE

Wholesale trade employment declined in 1982 and 1983 with employee losses in Lumber and Farm Machinery sales. Lumber employment improved in 1984 but fell off again in 1985. The Wholesale Trade employment level followed that industry. The sharp decline in 1986 resulted from changes to the Standard Industrial Classification Code that placed establishments from the Wholesale Division into the Services Division. Commercial Machines and Equipment had the most noticable employment loss of 1987. In 1988, Miscellaneous Construction Materials and Farm and Garden Machinery had the greatest losses.

RETAIL TRADE

Eating and Drinking Establishments provided most of the increased employment in 1983 and 1984. The employment drop in 1986 was reflected in nearly every class of retail trade. The 1987 increase was due to employment in Auto Dealerships, Service Stations and General Merchandising. In 1988, the highest employment level of the eighties was recorded as Eating and Drinking places gained nearly 1000 employees. Auto Dealers and Service Stations continued to increase employment. Food Stores increased employment by almost 400 employees and Miscellaneous Retail gained 159 employees.

FINANCE, INSURANCE AND REAL ESTATE

From 1982 to 1984 there was a substantial increase of Insurance and Real Estate Agents. The loss in 1986 occurred within the Bonding Industry which continued to lose employment in 1987. Insurance Carriers and Real Estate Agencies brought about the overall employment gain in 1987. Depository and Nondepository Credit Institutions account for the slight employment decrease in 1988.

SERVICES

Since 1980 employemnt within the Services industry has increased adding more than 12,700 employees and 1,440 new employers statewide. Health Services, Business Services and Social Services, in that order, have provided the increased employment. In 1988, Social Services gained over 1200 employees, Motion Pictures, Amusement and Recreation, and Health Services each gained approximately 400 employees - many of these came from the break out of Miscellaneous Services and Nonclassifiables into other SIC codes of this division.

GOVERNMENT

Both State and Federal Government employment increased in 1988 as drought and forest fires plagued the state. Local Government, which lost 460 employees in 1987, continued to decline in 1988 losing 83 employees on average. State Government increased by 472 employees primarily due to fires thoughout the state and preliminary employment for the convening of the state legislature. The Federal Government also increased employment adding 392 employees in response to forest fires and continued drought.
